

July 22, 2026

Dear neighbors,

Major renovations are underway at Wahlert Catholic High School. As we prepare for the new school year, we want to share how construction may affect our surrounding neighborhood.

Construction has reduced parking on our Central Campus for the coming school year. As a result, some Wahlert students will need to park on nearby streets where parking is permitted. This may bring additional traffic and demand for street parking.

We value our relationship with our neighbors and understand the inconvenience this may cause. Students will be reminded that they are guests in the neighborhood and instructed to:

- Follow all posted parking restrictions and time limits
- Keep driveways, mailboxes, fire hydrants and intersections clear
- Park responsibly without taking more space than necessary
- Drive slowly and carefully on residential streets
- Avoid leaving litter or creating unnecessary noise

We will continue working to minimize neighborhood impacts throughout construction. We are grateful for your patience, understanding and support as these improvements take shape.

Project updates and timelines are available at holyfamilydbq.org/inspiring-spaces-construction-updates.

Thank you for sharing your neighborhood with our students and for being a valued part of the Wahlert Catholic community.

Sincerely,

Daniel Thole
Wahlert Catholic High School Principal

Jamie Marshall
Wahlert Catholic High School Assistant Principal
